Safe Employer Award

In Saskatchewan, the most progressive organizations recognize the importance of protecting their most valuable resource—their workforce. These organizations actively strive to create healthier and safer workplaces by implementing systematic safety management programs.

The leaders of these organizations view safety management as an integral part of their success and sustainability. They commit to continual improvement and evaluation of their safety management systems in response to both internal and external circumstances.

To celebrate these best practice employers, WorkSafe Saskatchewan and the Saskatchewan Safety Council developed the Safe Employer Award.

We strongly encourage occupational health committees and their employers to apply for this award.
