Psychological Safety – framework and metrics

Jay Lamont

Corporate Mental Health Strategy vision statement

The City of Regina is a psychologically safe workplace that fosters the full productivity of employees, through an inclusive and respectful environment supporting mental health and wellbeing.

The City of Regina Corporate Mental Health Strategy includes four Key Objectives

1. Provide awareness and educational programming aimed at reducing stigma and increasing organizational literacy related to mental health and mental illness.
2. Develop senior leadership and management competencies to support a psychologically safe workplace and act as ambassadors for all components within the CMHS.
3. Provide a sustainable framework of resources to support all City of Regina employees in building personal mental fitness; and resilience to psychosocial factors that contribute to mental illness.
4. Implement the *National Standard of Canada on Psychological Health & Safety in the Workplace* – championed by the Mental Health Commission of Canada. The *Standard* is a voluntary set of guidelines, tools, and resources focused on promoting employees' psychological health and preventing psychological harm due to workplace factors.

Mental Health Strategy Initiatives

Psych Safety video introduction as part of on-boarding

Psychological Safety Leadership Commitment

Celebrated MH Week, BLT Day, connected and collaborate with DEI when opportunities intersect

Leverage Workplace Strategies for Mental Health – Canada Life, CAMH, Manulife resources, FSEAP, CCOHS

City of Regina Mental Health initiative branding

Canada Mental Health Week, Mayor's lunch on Day of Caring, *Bell Let's Talk Day*, *Not Myself Today*, FSEAP monthly newsletter, *Recovery Day*, October Healthy Workplace Month

Mental Health Continuum Model

Awareness and access to community resources for mental illness and addictions.

Mental Health Matters: *"Together Against Stigma"*

Psychological Safety talks.... slow build, goal to get to 1/5 safety and tailgate talks

FSEAP: presentations, quarterly campaigns, monthly newsletters

CityConnect Health and Safety Snapshots

Guarding Minds @ Work

Identify opportunities to engage family and community supports. i.e. Firefighter family movie day

Establish working group of key stakeholders: Sask. Blue Cross, Manulife, FSEAP, COR unions, Diversity and Inclusion Working Group

Training

Mental Health First Aid™

Respectful Workplace (including mh and well-being), Harassment, Violence training

The Working Mind™ and TWM for Managers

Road to Mental Readiness™ (first responders)

Managing Mental Health Matters via Workplace Strategies for Mental Health

Bystander Awareness Training – #enoughalready (GM@W collection) – 2022 mandatory campaign

Interaction Safety (in-house) – based on *Safe to Soar* and *Opening Doors*

EFAP: cyclical education sessions

 - Annual progress reports will be prepared by departments to share with ELT.
- 2025 Q2: Next GM@W survey, then 2027, 2029, etc.

2018 PRCS – 77.1% favourable

PSR11: Balance

A work environment where there is recognition of the need for balance between the demands of work, family and personal life.

2022 PRCS Balance — 76.8% favourable

Balance

A work environment where there is recognition of the need for employees to be able to manage the demands of work, family and personal life.

**In early 2020, researchers from Queen's University [conducted an analysis](#) of the self-reported psychosocial risks in Canadian workplaces using the updated survey. In total, over 500 working Canadians from every province and territory and from every Industry Canada sector completed the survey to provide a snapshot that you can use as a general point of reference.

PRCS 2024 — 90% favourable

from: CSA Z-1003-13

Psychologically safe leadership

The [National Standard of Canada for Psychological Health and Safety in the Workplace](#) recognizes and states the need for organizations to ensure that those in leadership positions have the training and skills to “prevent psychological harm, promote psychological health of workers and address problems related to psychological health and safety.” The Standard equally advises organizations to regularly assess and address leaders’ competencies as they apply to psychologically safe leadership.

Psychologically-Safe Leader Ax

What's included in the Psychologically Safe Leader Assessment?

- A list of leadership strategies known to support PHS.
- An online survey leaders can use to understand which strategies they already use. It'll also highlight areas for improvement.
- Free resources linked to each strategy to help with continual improvement.
- A survey for employees to capture their perception of their leader's strategies.

This isn't a personality or character assessment. It focuses on the extent strategies known to support psychologically safe work are being implemented.

The footer banner is a dark blue rectangle containing several elements. On the left, there is a logo for 'Psychologically SafeLeader' with a green and orange circular icon. Below the logo, the text reads 'Psychologically Safe Leader Assessment' and '©2025 All rights reserved.'. Further down, it says 'Workplace Strategies for Mental Health Social Media Links' followed by icons for Twitter, LinkedIn, and YouTube. On the right side of the banner, there are two white rectangular boxes. The first box contains the text 'Workplace Strategies for Mental Health' and 'Compliments of Canada Life'. The second box contains the 'GuardingMinds @ WORK' logo and the website 'guardingmindsatwork.ca'. In the top right corner of the banner, there is a link 'Contact us | Terms and Conditions'.

Psychologically Safe Team Ax

Measures how team members feel about how they interact with each other and their sense of inclusion. In other words, it's not just up to the leader; everyone on the team has a role in making the team a safe and inclusive work environment. This assessment measures the following 3 categories:

Leader support for team cohesion

Team interactions

Inclusion

Stress Satisfaction Scan

Statements that assess satisfaction related to control and reward, demand and effort, and perceived fairness and supervisor support.

1. I am satisfied with the amount of involvement I have in decisions that affect my work. (control as a satisfier)
2. I feel I am well rewarded (in terms of praise and recognition) for the level of effort I put out for my job. (reward as a satisfier)
3. In the last six months, too much time pressure at work has caused me worry, “nerves” or stress. (demand as a stressor)
4. In the last six months, I have experienced worry, “nerves”, or stress from mental fatigue at work. (effort as a stressor)
5. I am satisfied with the fairness and respect I receive on the job. (fairness and respect as stress mediators)
6. My supervisor supports me in getting my work done. (supervisory support as a stress mediator)

What could we have done differently?

1. Taken the time to really look at existing systems, feedback loops, data collection already in place.

For example.....more intentionally integrated PHS with Safety Management System..... spent several years as an add-on.

2. Linked resources, processes, and programming responsibilities to *positions* rather than *people*.

3. Aligned with leadership development, leadership craft development: values-based, transformational, create connection.

4. Press and/or leverage our partners and stakeholders more: Manulife, union partnerships, EAP, LRWS, WorkSafe, SHA

6. Need to celebrate more wins, milestones, stories.

5. Initiative focus:

Awareness and access to community resources for mental illness and addictions. (more)

Canada Mental Health Week, Mayor's lunch on Day of Caring, *Bell Let's Talk Day*, *Not Myself Today*, FSEAP monthly newsletter, *Recovery Day*, October Healthy Workplace Month (less)

Change Leadership to Advance Psychological Health and Safety

“How might we inspire sustainable behavior change in the development of a psychologically safe work environment”?

1

How might we identify leadership styles conducive to sustainable, positive behavior change?

2

How might we encourage open-minded, curious **followership** behaviours that walk others in the direction of the vision?

3

How might we harvest an inventory of current-state psychologically **safe** behaviours we want to promote/advance?

Leverage Platforms and Align Initiatives

Inclusivity for Psychological Wellbeing

Authentic and Empathic Leadership

Connect Leaders with Employees, Values, and Purpose

Involvement and Influence

A work environment where employees are included in discussions about how their work is done and how important decisions are made.

Assumption of Positive Intent

“we extend the most generous interpretation possible to the intentions, words, and actions of others”

— Brene Brown

Employee Focus:

- Ask questions, provide positive contributions and ideas.
- Participate in feedback opportunities for growth.
- Seek clarity.
- Lead self with intention.

Clear Leadership Expectations

A work environment where there is effective leadership and support that helps employees know what they need to do, how their work contributes to the organization, and whether there are impending changes. (Leader Focus)
